## CAPITALISTS PLAN TRIP OF INSPECTION

Party From Salt Lake to Visit Green River and Moab.

### TO LOOK OVER FRUIT LANDS

JAUNT INCLUDES RIVER CRUISE IN GASOLINE LAUNCH.

With a view to getting acquainted with the people living in Green River and Moab, in the Green river and Grand river districts, in Utah, and also becoming familiar with the possibilities of the regions for fruit growing, a party of prominent Salt Lake and Ogden men, piloted by E. T. Merritt and T. G. Wimmer, Jr., of Green River, will leave Salt Lake Monday morning over the Denver & Rio Grande for the southeastern part of the state.

The party represents almost unlimited capital and if the country offers sufficient inducement for investment it is likely that great results may come from the visit. It is likely that Governor William Spry will be a member of the "Get Acquainted" expedition, although he has not definitely promised to go. He may go with the party as far as Green River, join in the festivities there and then return to Salt Lake. The roster of the party so far as known at the present time is as follows: Mayor John S. Bransford, E. T. Merritt of Green River, A. J. Carter, Edward O. Howard, assistant cashier of Walker's bank; M. S. Browning of Ogden, David Eccles of Ogden, C. A. Gray, of the Huffman Realty company; M. J. Cummings of Anderson-Cummings company; A. H. Birrell of the Birrell-Shipley Realty company; H. L. Griffin, an experienced navigator of the Green and Grand rivers; T. G. Wimmer, Jr., of Green River; J. D. R. Tiedeman, chief of the United States land office; Assistant State Engineer Morgan, the Rev. Francis Burgen of the First Presbyterian church of the Newhouse Realty company and two local newspapermen.

### Entertainment Provided.

The party will leave Monday morning at 8 o'clock and on their arrival at Green River will be met by the Green River band and escorted to the Commercial club, where a banquet will be served, at which addresses will be given by several of the visitors and by prominent local people. In the evening a dance will be given in honor of the visitors. At Green River the party will board gasoline launches, which under the pilotage of H. L. Griffin, will carry them down the Green river to Moab, a distance of 175 miles. As game abounds along the banks of the stream stops may be made for the purpose of hunting. Members of the party will be equipped with hunting outfits to take advantage of any opportunity.

On arriving at Moab the party will be met by a band and a banquet, speech-making and a dance will follow. Residents of the two cities are making elaborate preparations for the entertainment of the visitors. It is thought that if they do not leave with the best of impressions of the coming fruit districts of the state.

The return trip will also be made by gasoline launches and the country along the banks of the stream will be looked over carefully with a view to ascertaining the possibilities presented for the raising of fruit.

A movement is now on foot for the navigation of the river by large passenger and freight carrying steamers. It is thought that a little dredging will be necessary to make this safe. In the event that a regular line of steamers is operated on the river, it is thought that the whole country along the course of the stream will be given over to fruit orchards.

## IMPROVEMENT NOTICED

Actor Who Visited City Several Years Ago Is Surprised at the Changes.

Walter McCullough, the new leading man at the Grand theatre, says he can see many improvements in this city since his last visit.

"Salt Lake has certainly had a wonderful growth since I was here several years ago, while playing Mephisto for Lewis Morrison, in the immortal play of 'Faust' at the Grand theatre," said Mr. McCullough. "On the east and west I could see nothing but slacks. As I was down Main street today I couldn't help but notice the magnificent buildings that have and are being erected. During the last year I have traveled a great deal through the east and middle west, but in no place did I see the activity that is manifest in this city."

"Salt Lake is on the tongue of nearly every one in the commercial centers of the east, and all look upon it as one of the coming cities of the country. While playing Mephisto here, a peculiar incident happened. The trap which was used when I am supposed to descend to Hades, was rather small, and my long red feather stuck out above the floorboards."

"One of the youngsters up in the gallery noticed this, and in a shrill voice shouted, 'Hell is in the trap.' The funniest thing I have ever heard in connection with the broken scene, was the remark made by a negro while playing one of the southern towns. Of course you have seen the play, and know that negroes are not used in this scene. A negro took in the show, and when it came to Satan's den, the negro became particularly interested. He said nothing to his friends that night, but while I was waiting the streets the next day I heard him remark, 'I seen hell last night, but I did not see any negroes.'"

Mr. McCullough is a very congenial and pleasant man to talk to, and will no doubt make many friends while in the city. He is of the dashing romantic type, with a deep musical voice and dreamy eyes. He is a nephew of the late John McCullough, the famous actor.

## LIP AND LEG DISEASE IN BOX ELDER COUNTY

State Veterinarian Discovers Fifty Cases of Dreaded Sheep Plague Near Kelton.

Dr. A. C. Young, state veterinarian, returned to Salt Lake Friday, after a trip made to the vicinity of Kelton, Box Elder county, where he looked into the condition of a herd of 33 Rambouillet bucks which had been reported suffering from necro-bacillosis, the lip and leg disease. Dr. Young found that 30 per cent of the bucks were suffering from the disease, a severe form, and the sheep were quarantined and will be treated in the usual manner for the disease.

Dr. Young will return today to the district and will take federal inspectors and proceed to mark out a new trail for the sheep to follow, that they may not become infected through passing over the old trail. Dr. Young will ride through the district over which the trail will be laid out, and decide upon a proper route. Dr. Young, while absent from the city during the week, inspected and condemned fourteen head of horses near Trenton, in the Cache valley, which were found to be suffering from glanders, and ordered the sheriff to kill the animals.

217-15 Herald Bldg.

### Notice to Water Users.

STATE ENGINEER'S OFFICE, SALT LAKE CITY, UTAH, August 21, 1909.

Notice is hereby given that John A. Bagley and F. M. Lyman, Jr., whose postoffice address is Salt Lake City, Utah, made application in accordance with the requirements of chapter 108, Session Laws of Utah, 1905, to appropriate one thousand (1,000) cubic feet per second of water from Sevier river, Juab county, Utah. Said water was to have been diverted by means of a dam and a canal, at a point which bears north 16 degrees 50 minutes east, 2,645 feet distant from the north quarter corner of section 17, township 15 south, range 2 west, Salt Lake base and meridian, from where it was to have been conveyed for a distance of 184,800 feet and there used from April 1 to September 30, inclusive, of each year, to irrigate 195,200 acres of land embraced in sections 1 to 36, inclusive, township 15 south, range 7 west, sections 21, 28 and 33, township 15 south, range 8 west, sections 1 to 36, inclusive, township 16 south, range 5 west, sections 1 to 36, inclusive, township 16 south, range 6 west, sections 1 to 36, inclusive, township 16 south, range 7 west, sections 1 to 36, inclusive, township 16 south, range 8 west, sections 1 to 36, inclusive, township 17 south, range 5 west, sections 1 to 36, inclusive, township 17 south, range 6 west, Salt Lake base and meridian, with addition of any quantity of water above mentioned, said applicants intended to appropriate two hundred thousand (200,000) cubic feet of water, which was to have been stored in a reservoir embraced in township 16 south, range 2 west, Salt Lake base and meridian. Said water was to have been stored whenever available during the period from January 1 to December 31, inclusive, of each year, and released during the period from June 1 to September 30, inclusive, of each year, and allowed to flow down the natural channel of said stream to the point above specified, where it was to have been diverted, conveyed and used in the manner and for the purpose above stated. Said application was approved by the state engineer March 18, 1907, and until March 1, 1910, was allowed for the completion of the works necessary for the appropriation of the water. The Sevier River Land and Water company, the assignee of John A. Bagley and F. M. Lyman, Jr., by its secretary, J. D. Landes, whose postoffice address is Salt Lake City, Utah, intends to carry out the scheme outlined above, except that the diversion is hereby made in accordance with section 1288324, chapter 62, Session Laws of Utah, 1905, to change the place of diversion to a point from which the southeast corner of section 22, township 14 south, range 2 west, Salt Lake base and meridian, bears south 45 degrees 32 minutes east, 1,406 feet distant from where it is to be conveyed to the above described lands and there used during the periods and for the purpose above named. The application is designated in the state engineer's office as No. 1367.

All protests against the granting of said change of point of diversion, stating the reasons therefor, must be made by affidavit in duplicate and filed in this office within thirty (30) days after the completion of the publication of this notice.

### CALDER TANNER,

State Engineer.  
Date of first publication October 16, 1909.  
Date of completion of publication, November 15, 1909.

### Assessment No. 3.

THE UTAH IDEAL MINING COMPANY, Principal place of business, Salt Lake City, Utah.  
Notice is hereby given that at a meeting of the board of directors of the Utah Ideal Mining company, held at Salt Lake City, Utah, on the 23 day of November, 1909, an assessment of 1/4 of a cent per share was levied upon the capital stock of the corporation issued and outstanding, payable immediately to Will Rees, the secretary at the office of the company, 25 East First South street, in Salt Lake City, Utah.  
Any stock upon which this assessment has not been paid on or before the 1st day of February, 1910, will be declared delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 20th day of February, 1910, at 10 o'clock a. m. of said day, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.  
WILL REES, Secretary.  
25 East First South street, Salt Lake City, Utah.
